Required Steps to Join AES

Get informed about the most important aspects of our society, its benefits and possible ways on how you can contribute.

Demonstrate interest and your willingness to drive initiatives. We review your answers, invite you to a kick-off, and introduce you to our community.

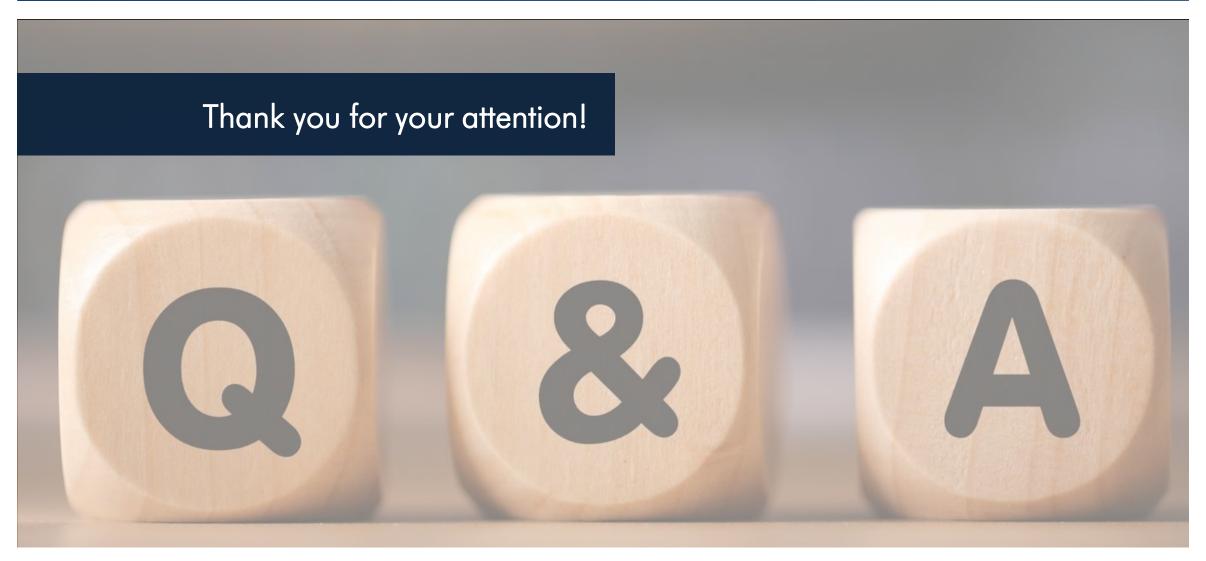

See the insights of AES and bond with our members. After 4 weeks we do a feedback session (both ways) to to see whether we get along well.

After the successful end of the trial period, you become a member of our non-profit entity (gemeinnütziger Verein) and our core team.

Working Group: Club Life & Member Development

AES

Asian-European Society Munich

About the group

What Is It About?

A vivid club life and an interacting diverse community are at the core of AES. The Club Life working group facilitates this mindset by driving initiatives that integrate mutual collaboration and foster personal development into our daily life. This includes the creation and realization of own initiatives and a close alignment with all members to foster an interacting community at AES.

Working Group: AES Social Event

AES

Asian-European Society Munich

What Is It About?

About the group

Community and intercultural exchange are at the heart of all AES' activities. To build a long-lasting community, strong social ties through mutual interaction are essential. Therefore, each internal or external AES Social Event is organized by an event-based working group that is responsible of the entire process from A to Z, including ideation, participant communication, budget overview, and many more.

Working Group: Marketing

What Is It About?

Asian-European Society Munich

About the group

Spreading the word of our student society across Munich's universities is of major importance for all AES activities. The team is crucial for building-up a constantly increasing community of followers and contributors. Therefore, the group drives all activities with regards to marketing strategy, digital marketing, and offline marketing. Further, it supports other groups with promoting all AES events.

AES

FAQ

Asian-European Society Munich

What happens after I joined the AES network?

You remain member of AES with access to all Slack channels, the working groups, and our events; but you will be treated as passive member according to our statutes and loose the benefits outlined on slide 3.

What are my benefits as core member? "It is just more work and the benefits as AES Network member (passive member) are nearly similar."

We believe that contributing to a non-profit initiative is largely based on intrinsic motivation and your willingness to drive our vision forward. We outlined additional benefits as a core member on slide 3. We are sad to see if these aspects are not of any value for you. If you have any idea how we would change this, we are looking forward to your suggestions.

What is the difference between permanent groups and event-based assignments?

Permanent groups (e.g. Partnerships) drive our efforts in their respective fields constantly and are established independently of an activity. Specific one-time activities (e.g. a particular social event or corporate workshop) are organized by project/event-based groups. Permanent groups require constant engagement throughout the semester whereas event-based assignments require more concentrated effort to realize a particular activity or event.

Why is there a board member and a working group lead in the group?

The board member of the working group takes a rather passive role, aligns objectives and supports coordination efforts and exchange between groups. The group lead organizes the working group itself, sets objectives, has oversight of members in the group and responsibility for the outcomes. Furthermore, leading a group is a great way to demonstrate commitment, responsibility, and performance for one selfs personal development and towards AES. Given a changing board each semester, group leads will be in a good position to take over future roles in the board.

Can lorganize a Social Event, if I am only in the Corporate Workshop pool? (and similar configurations)

Yes. If you have an idea for a social event, you can align yourself with the Club Life Group and select interested fellows from the Social Events Group (Pool) in order to realize your idea. The same applies for organizing speaker events, corporate workshops etc.

What can I do if I have an idea, task, comment not related to a specific working group?

Please contact the owner of the respective permanent working group that your task would likely to be part of. In case you are not sure who to contact, please reach out to the board.

Core Members Enjoy Full Benefits While Network Members Being Fully Integrated into the AES Community

AES
